

Work Plan - Alternative Cover Design Revised 2-21-14.pdf
smime.p7s

Landfill Team-

For your review and comments, I've attached the revised work plan for evaluating the alternative landfill cover designs for West Lake. It is one of the component work plans of the Supplemental Feasibility Study that resulted from the National Remedy Review Board evaluation (for those that know him, Ed Barth is on the NRRB).

The work plan was revised to address NRRB, EPA and Missouri DNR comments on the draft work plan and the result of discussions at a September 24, 2013 meeting. A summary of the substantial revisions and rationale for these revisions is provided in the cover letter on this document.

I appreciate everyone's comments and suggestions on this document. Note the timeline for review is 30-45 days.

Please feel free to contact me with any questions or comments.

Thank you,

John

Hi Dan-

Thanks for this. Before we take this on, what is your timeline for comments?

John

John, my management has requested that ORD review and comment on this work plan. It is one of the component work plans of the Supplemental Supplemental Feasibility Study that resulted from the National Remedy Review Board evaluation. Please let me know when you and your team might be able to provide your comments. Call with any questions.

Thanks,

Subject: Revised Work Plan - Evaluation of Alternative Landfill Covers

Dan,

Attached please find the revised work plan for the evaluation of alternative landfill cover designs. The work plan has been revised to address EPA and MDNR comments on the draft work plan and the results of the discussions at the September 24, 2013 meeting. A summary of the more significant revisions and rationale for these revisions is provided in the cover letter included in the attached file. Please do not hesitate to contact us if you have any questions or require anything else.
